

Md. RAZEDUL ISLAM

I intend to work in a very challenging and competitive environment where strong sense of responsibility and commitment is required. Able to implement pixel perfect **responsive design** and can convert figma to html.

SKILLS

C/C++, OOP, MySQL

HTML, CSS, Bootstrap, Tailwind, JavaScript, TypeScript, ReactJS

Git, Chrome DevTools, API

EDUCATION

B.Sc. Engineering

Information and Communication Engineering
University of Rajshahi, Bangladesh
CGPA : 3.30/4.00

PROJECTS

Design and Development of Online Quiz System

The online quiz system uses Django development server for creating database of student and teacher in local server. It also uses HTML, CSS to design web page and uses Python to make connection webpage with database.
